

GIVE THEM SOMETHING TO SMILE ABOUT

Many of our newsletters are filled with projects of construction, fiber installation, phone upgrades, electrical installations and upgrades or logistic projects; which is many times what takes us around the world to share God's love. Sometimes what you as readers are not seeing is the people that are being reached by hearing the gospel message, and the call on their lives to follow Jesus. We want to share some stories that allow you to see who you are impacting as you serve and partner with us.

The gospel message is a message that many still have not heard. The need for all to hear **THE GOOD NEWS of JESUS CHRIST**, is the reason Tech Serve International came into existence over 37 years ago. JESUS IS OUR ONLY HOPE of eternal life with GOD and that is why we are compelled to reach the lost for The Kingdom of Heaven through all the avenues God has provided.

GHANA—THE SEASON OF NEW BEGINNINGS

It's an exciting and encouraging time for the ministry in Ghana that TSI has been a part of. Pastor EB is seeing the benefits of having a new school building, that was constructed by Tech Serve in the fall of 2024, along with the installation of the new Wi-Fi system

in the community in spring of 2025. God is using this avenue of the new building to reach these children and adults. In one location, the children used to have school in an old chicken coup. Pastor EB and his staff can now offer a larger facility, expanded curriculum, updated teaching techniques and electricity in classrooms that did not have these prior modern conveniences. Many parents of the children in the community, who are not Christians, have approached Pastor EB to enroll their children in the new school. Parents understand that their children will be taught biblical values, daily devotions, and prayer time. The parents are now engaging in hearing the gospel, which is changing their lives and the lives of their children. Pastor EB's focus is to share the love of Christ with his community.

OLD SCHOOL BUILDING

New Primary School — Construction Projects in Ghana

Pastor EB has been in need for additional school buildings in two locations. As local parents came to inquire about sending their children to Pastor EB's school, he discovered he was running out of space to teach the increased enrollment. Tech Serve is working with Pastor EB to use local contractors and local building materials. As

workers make bricks for the walls and foundation of the building, teacher's lay a solid Christian foundation in the lives of these children. The additional primary school

NEW SCHOOL BUILDING

in one location adds 6 new classrooms and 2 offices. This additional space allowed enrollment to go from just over 100 students to over 130 students. Pastor EB and his staff are teaching the children to make room for Jesus in their lives.

New Trade School — Ghana

Tom Slatten and Pastor EB have been working together to build stronger relationships with the local community. Pastor EB had a vision of a trade school on the property in one of the locations. The trade school would offer theoretical knowledge with practical skills, essential for instructing the junior and senior high students.

Construction of the trade school began in November of 2025 and has progressed very well with Tom’s oversight and interaction. Tech Serve provides oversight to Pastor EB, who uses local contractors to build this trade school. Trade courses offered will be electrical,

welding, dress making and beading. Trade school instructors are Christians who can intertwine their faith and biblical values into the courses. Pastor EB is going to add a welding shop and wood-working shop which will require another building.

Many times students drop out of school before they gain technical and practical skills that would advance them into their adult life. Pastor EB emphasizes “we want to impact our society at large, to serve as a light of the community in Ghana and the world.”

Students wanted to be a part of the building process, and were

allowed to assist on their breaks or after school hours, with the removal of dirt. They are excited about their new trade school building, which is adjacent to

the primary school. The total enrollment on the school grounds added 83 more students.

(Isaiah 12:3)

“With joy you will draw water from the wells of salvation.”

The location of the trade school is a strategic God design. The outside back wall of the trade school is just a few feet from a local well, where women come to draw water for their families. This allows opportunities to share the Living Water with local women.

The Wi-Fi Project is a stand alone Wi-Fi video server constructed by TSI, is taking the gospel into the homes of the local communities. Many practice other religions or no religious belief at all. In the picture below, a woman from one of the villages had difficulty connecting, so Paul from the school helped guide her in the connection and explained the project to her. She was receptive and open to the content she was watching that was provided by TSI.

Here is a testimonial from Pastor EB: “The Wi-Fi has been a game-changer for our school, enabling our students to access a wealth of educational resources, and stay connected with the world beyond our campus. Moreover, it has facilitated our spiritual programs, allowing us to stream offline sermons, access digital devotionals,

and connect with other faith communities and we can have access to the gospel in the local language. My FM radio program broadcasts will be uploaded into the system for students and parents to access the gospel at large. Your gift has not only enhanced our academic and spiritual programs but has also demonstrated your love and care for our students and lost souls. We are deeply grateful for your investment in their future and spiritual life. Please know that your contribution has made a tangible impact on our school and community.”

The teachers have been using the Wi-Fi project in their classrooms and broadcast the content into the classrooms on the TV. The children are

learning faster using this method. Recently two classrooms needed to use the TV to broadcast the Wi-Fi content, however the classroom wasn't big enough for all the students. So the teachers moved the TV outside to accommodate the large group. Additional TV's are needed for classrooms.

The Christ Foundation Academy & Church

In another location, Pastor CL is a man of God with vision and determination. “Where there is no vision, the people perish.” The Christ Foundation Academy is the only Christian school in an area surrounded by 4 communities. Tom Slatten oversaw upgrades to the school building in the fall of 2024. Due to the Christian curriculum and Christian environment of the school, enrollment increased. The need for more classrooms prompted Pastor CL to begin construction and eventually contact TSI for assistance. Tom Slatten has been working with Pastor CL to oversee the building project. The building will allow for a 2nd floor in the future, as the student body grows.

The student enrollment has risen from 85 students to 162 students due to the renovation of

the school recently. Now with another new building going up, the student body has increased to 246. The Wi-Fi project that was installed in 2025, is a part of the curriculum offered to students, a great tool for the teachers and also for the community to use on their own.

It's exciting to see what God is doing! It is gratifying knowing we are making a difference in all of these lives behind the scenes. So many have something to smile about and others need our prayers as they navigate the challenges they face in their lives.

The school teachers attend Pastor CL's church. Pastor CL stated that "God is blessing His church with souls wherever we go." Pastor CL's main goal is missions and to grow the body of Christ. God meets us right where we are at. Pastor CL is pioneering 13 new churches in the surrounding communities. Pastor CL declared "We are not discouraged meeting under a tree because we know in God's own time, He will provide us a place of worship." While it's nice to have a building, we know that the church is a body of all of us who believe in Jesus Christ as our Savior. It's so encouraging to see God moving in the lives of these people, whether it is through assisting in educational opportunities or building up the body of Christ. Please pray with us, for this part of our body, in areas of evangelism, discipleship, church planting and leadership training.

"And he said unto them, Go into all the world, and preach the gospel to every creature."

Mark 16:15

The Gospel of John Shipment — Nigeria

We were able to send another container of The Gospel of John. The Living Water Project distributes free copies of The Gospel of John. As Tech Serve loads containers, we send as many gospels as we can, to help spread the Best Good News anyone could ever receive! Our latest shipment of 218,000

copies to Nigeria, arrived safely in port. Most Nigerians speak English and French. There are 520 native languages in the nation. Our prayer is that many will come to accept Jesus as their Savior & spread the news.

Please pray with us, for the body of Christ there in Nigeria who are being persecuted for their faith. More and more are coming to choose to live their lives for Jesus Christ. In the last 15 years, the church body in Nigeria has been under extreme attack. God is using you as we pray and send the gospel around the world.

Thank you for your help!

From The Desk to the Dock with Wes

We have an opportunity to pray together, to be a ray of light in a dark world, to be a revealer of truth, and a voice of clarity with the gospel. We know that we are in a battle for the souls of those who are lost and need Jesus. Our only power and success comes from God. Our confidence is in God and His ability to direct each of our steps.

We are so thankful for you, our wonderful Tech Serve friends! Because of your prayers, volunteering, donations, and giving, we can continue helping Missions in many parts of the world. We are grateful to serve alongside of you to make the name of Jesus known around the world.

So whether you pray, give, or go, please know you are of great value to the Lord and to our work at Tech Serve! We know our Lord will bless and reward you as only HE can according to His perfect plan.

THANK YOU! *Wes Syneron*

“And you will say in that day: Give thanks to the Lord, call upon His name, make known his deeds among the peoples, proclaim that His name is exalted.”

Isaiah 12:4

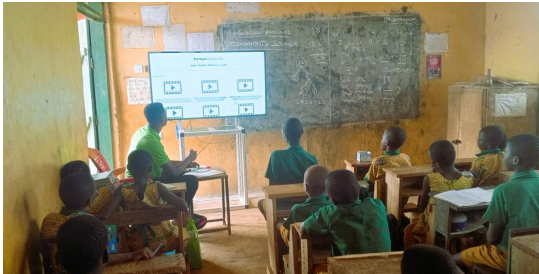

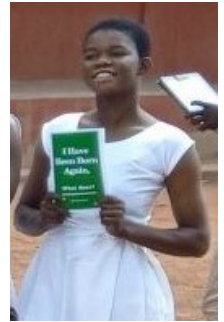

PRAY WITH US

If you are serving anywhere in the world, and you need help with logistics and container shipping, a construction project, fiber, networks, electrical engineering, telephone and VOIP Systems, GIS systems, etc., feel free to call.

We love to help! www.techserve.org +1-501-679-2120

“But whoever drinks of the water that I will give him will never be thirsty again. The water that I will give him will become in him a spring of water welling up to eternal life.” John 4:14-15

THE BOTTOM LINE
